

Financial Overview –

We want to keep this as simple as possible – for you and for us.

1. **Contact Firebird Spirit** (phone or email) and let us know **when you need coverage**. We'll ask you a few questions.
2. **Tell us what you normally pay** for a Supply Pastor. This varies around the country so we trust you to name that price. **That is the amount we will charge you.**
3. The **Thursday** prior to the Sunday service date, we will **email your packet** to the person you designate as your liaison to us. Along with the **downloadable link** and **editable document** of service information, you will receive an **Invoice for the service**. It will be the same amount that you quoted to us.
4. We expect **payment to be on its way to us within ten (10) days**, although we recognize the erratic nature of the USPS right now. You may pay by **check** or **online**. If you are unable to use the video because worship is cancelled, just notify the Firebird Office and we will VOID the Invoice – *unlike cancelling with a supply preacher when you would have to pay her/him anyway.*

That's it! We operate on the honor system here and trust the churches we work with.

If you know you will be using our services more than once, we are happy to invoice you once for multiple services and work with your bookkeeper to streamline the process wherever possible.

Please keep in mind that Your Partnership Supports

- Weekly **service production** (recording, editing, licensing, equipment, etc.)
- Creation of **Worship Packets**, seasonal supplements, and advance schedules
- Online **Zoom gatherings** and **technical support**
- Connection to the Firebird Spirit **Community of Hope**

Together, we keep worship faithful, Spirit-led, and full of hope.
