

What is Firebird Spirit?

Firebird Spirit is where the sacred meets the real.

We are a community of hope—people who care deeply, question freely, and long for a more just and luminous world. Shaped by a historic Christian tradition that values careful discernment, we believe the Spirit is still moving—still renewing the Church and speaking through beauty, story, and song.

Rooted in the Jesus tradition and open to wisdom wherever it burns bright, Firebird Spirit creates inclusive worship experiences that awaken the heart and nourish the soul. Through story, scripture, art, and reflection, we invite people to encounter God's presence in the midst of everyday life.

Through the Firebird **Worship Supply Kit**, we share complete, thoughtfully prepared worship offerings with congregations and leaders—so that wherever people gather, Spirit can meet them there.

What is Firebird Worship?

Each week, Firebird Spirit prepares a full online worship service designed for real congregational use.

- Not live-streamed
- Not glitzy
- Carefully prepared and pastorally grounded

Each service is compiled with participants from around the country as part of building our **Community of Hope**—a growing network of churches, non-profits, and denominational partners committed to providing meaningful, theologically grounded worship that can be accessed whenever it is needed. Services may be used:

- As a complete video worship experience
- Or adapted locally using the full written script and resources

Every **Worship Supply Kit** includes a complete, editable worship script—including the message/sermon—so leaders may read, adapt, shorten, or integrate materials into their own bulletin and worship flow as needed.

Firebird Spirit grew out of a PC(USA) congregation in upstate New York and is shaped by careful biblical interpretation, pastoral responsibility, and a deep respect for the work of local leaders.

What the Worship Supply Kit Provides

The **Worship Supply Kit** is designed to support—not replace—local leadership.

Each weekly kit includes:

A Complete Worship Packet

- Call to Worship, prayers, scripture readings, and responsive elements
- An editable document for easy cut-and-paste use in your own bulletin format
- Use of hymns from *Glory to God* (in full compliance with copyright requirements)

Message & Leader Support

- A complete written message/sermon
- A brief note to worship leaders with practical suggestions for that week

Flexible Technology Options

- A downloadable video link for offline use
- No reliance on live Wi-Fi during worship
- No ads, interruptions, or last-minute surprises

A designated liaison from your congregation receives all materials in advance so worship can be prepared calmly and confidently.

Financial Simplicity

You tell us what you would normally pay for pulpit supply on a given Sunday. That is the amount we invoice.

- No subscriptions
- No mileage
- No hidden fees

Connection & Community

Partner churches are invited into an ongoing relationship, including:

- Periodic Zoom gatherings with Firebird Spirit leaders
- Opportunities to ask questions and share feedback

- Recognition as a participating congregation on our website
- A monthly Firebird newsletter with reflections, daily prayers, and upcoming themes

Recognition & Encouragement

As capacity allows, partner churches may also receive:

- A digital partnership badge for your website or printed materials
- Occasional spotlight features in Firebird communications
- Optional mini-trainings on digital worship, prayer leadership, or basic tech support

We believe no congregation should go without meaningful worship simply because a pastor is away, a musician needs a Sunday off, or a community is navigating transition.
